RE: Request for Expedited Permit Processing, Underground Storage Tank Removal at 221 North Columbus Drive, Chicago, Illinois – STS Project No. 1-32193-XC

Dear Mr. Valdivia:

This letter requests expedited processing of the accompanying underground storage tank removal permit application. The reason for the request is that the excavation where the tank was encountered is on a U. S. Environmental Protection Agency Superfund site. The contamination which is being remediated is radioactivity resulting from thorium in the fill soil.

The material is to be remediated as part of the preparation for construction of a residential development on the subject site.

Please contact us with any questions you have regarding this request.

Regards,

STS CONSULTANTS, LTD.
